1. Planning and preparation

Support teachers at each stage of lesson planning:

- **Syllabus**- be clear about what learners need to know and what they must be able to do and how they will be assessed
- **Specimen papers**- familiarize yourself with overall assessment approach
- **Schemes of work** – get ideas for teaching activities and find useful links to learning resources
- **Teacher guides** – find extra guidance to further improve your planning.

2. Teaching and assessment

Support teachers in the classroom;

- **Support for coursework and speaking tests:** feel confident about teaching coursework and managing speaking tests
- **Endorsed resources** – explore the range of resources (including endorsed textbooks) developed by publishers to support your syllabus.
- **Online forums** – ask particular questions about the syllabus or share ideas, challenges and best practices with other Cambridge teachers.

3. Learning and revision

Helps to understand the standard of Cambridge exams and prepare learners effectively;

- **Past papers and marks schemes** – familiarize your learners with exam requirements, command words in questions and how to answer questions that meet the assessment objectives.
- **Examples candidate responses** – build up your learners' understanding of what is required to gain marks.
- **Specimen paper answers** – develop your learners' understanding of what is required to gain marks based on high-standard specific examination responses.
- **Learner guides** – share these with your learners to help them plan their revision programme and better understand what to expect in the exam.

3. Cambridge exams

Helps exam officers by providing;

- Comprehensive support and guidance to all Cambridge exams

5. Results

Learn from your learners' results to improve your teaching practice and approach.

- Principal examiners report: get an insight into common errors made by learners in each part of the exam questions
